

Siemens VAI participated in the “METAL-FORUM OF UKRAINE-2008”

October 22-24 the sixth Forum “METAL-FORUM OF UKRAINE-2008” took place in Kiev. Being the permanent participant of the Forum, Siemens VAI is also the international partner of the event, along with SMS Demag company.

The Forum commenced with the conference which was held on 22 October in the “Premier Palace” Hotel where Siemens VAI presented its ARVEDI ESP Endless Strip Production process.

On 23-24 October the sixth specialized exhibition was held in KyivExpoPlaza center, where about 200 companies from 10 countries of the world took part. Siemens VAI also participated in the exhibition and presented two booths. The ARVEDI ESP Endless Strip Production process was featured at one of the booths.

A great amount of various booklets describing different metallurgical production processes were of great interest for guests and visitors of the Siemens VAI booth. A lot of visitors were attracted by the original ARVEDI ESP booth, constructed in a way which simplifies the overview and understanding of the Endless Strip Production process.
